

Platform End User License Agreement

Intelligence Community Data Consortium (ICDC) Platform

Attachment 1 | Version 2.1

This End User License Agreement (“**EULA**”) governs access to and use of the ICDC Platform (the “**Platform**”) operated by 10x National Security Inc. (“**10xNatSec**”). By accessing or using the Platform, each user (“**User**”) agrees to comply with this EULA. This EULA applies uniformly to all Users, including Vendor personnel, Government Customers, Whole-of-IC Enterprise Users and Downstream Users.

This EULA is incorporated into and subject to the Master Data Vendor Agreement (“**MDVA**”, Attachment 4), the Platform Agreement (Attachment 2), and the Data Processing Agreement (“**DPA**”, Attachment 3). All capitalized terms used in this EULA have the meanings assigned in the MDVA Section 1. Where a conflict exists between this EULA, the MDVA, the Platform Agreement, or the DPA, the MDVA shall govern, except to the extent the MDVA expressly states that a specific companion document supersedes a specific Section of the MDVA.

1. License Grant. Subject to this EULA, the MDVA, and all applicable Purchase Orders, each User is granted the data rights specified in MDVA Section 5.8 (Government Purpose Rights) as applicable to the User’s category. Vendor Users are granted limited access rights to the Platform, as specified in MDVA Section 3.1. Within the Platform, no User is granted unlimited or unrestricted rights to Vendor Data. All data rights are subject to the MDVA, the applicable Order Form, and Applicable Law.

2. Access Conditions. No User may access Vendor Data unless the conditions set forth in MDVA Section 2A.4 (No Free Riding) are satisfied. The purchasing agency who is providing access to any Downstream Users is responsible for ensuring compliance with all applicable Access Conditions by such Downstream Users. Each User shall: (a) use the Platform and Data solely for authorized purposes and in compliance with Applicable Law; (b) maintain the confidentiality of login credentials and not share them with unauthorized persons; (c) comply with the restrictions of use set forth in MDVA Section 3.3 and applicable Order Form, Purchase Order and relevant terms of the Vendor-EULA; (d) not reverse engineer, decompile, disassemble, or otherwise attempt to derive the source code, algorithms, data structures, or proprietary methodologies of the Platform. For the avoidance of doubt, clause (d) prohibits any attempt to reconstruct, replicate, or extract a Vendor’s underlying data, proprietary logic, user interface designs, or service architecture, whether through automated tools, manual analysis, or any combination thereof.

3. Data Quality and Warranty. Vendor Data related Data Quality and Warranty shall be as detailed in the Vendor-EULA. 10xNatSec makes no representation or warranty regarding the quality, accuracy, or completeness of Vendor Data. The as-is warranty pertains solely to data quality and does not extend to IT performance, availability, or uptime of the Platform, which are governed by the Service Level Agreement (MDVA Schedule C), which provides commercially reasonable targets, not guarantees, during the Platform’s prototype phase. The Platform, including all features, functionality, and related documentation, is provided on an “as is” and “as available” basis, and 10xNatSec disclaims all warranties, express or implied, regarding the

Platform's performance, availability, or uptime, excepts as expressly set forth in the Service Level Agreement (MDVA Schedule C).

4. Intellectual Property. All Intellectual Property rights in and to the Platform, and in and to Vendor Data, are as detailed in MDVA Section 6. Except for the limited access rights expressly granted under this EULA, no User is granted any ownership interest, license, or other right in the Platform, Vendor Data, or any related Intellectual Property, and all such rights are reserved to 10xNatSec of the applicable Vendor, as their interests appear.

5. Liability and Indemnification. Liability limitations and indemnification obligations are governed by MDVA Sections 9 and 10, except that, as between 10xNatSec and a Government Customer, liability and indemnification are governed by Sections 11 and 12 of the Platform Agreement (Attachment 2). No indemnification obligation shall be imposed upon the United States Federal Government or any Government Customer (MDVA Section 10.4).

6. Dispute Resolution.

6.1 Governing Law and General Forum. This EULA and all disputes between 10xNatSec and any Vendor or User arising hereunder shall be governed by and construed in accordance with the laws of the State of Delaware, without regard to conflict of law principles. 10xNatSec serves as the initial point of contact for all disputes. See MDVA Section 13.3.1. This Section 6.1 does not apply to the United States Government or any Government Customer, and disputes involving the United States Government or a Government Customer are governed exclusively by Sections 6.2 through 6.4 of this EULA.

6.2 Claims Against the United States Government. All claims against the United States Government shall be as detailed in MDVA Section 13.3.2.

6.3 No Arbitration Against the USG. Refer to the MDVA Section 13.3.3.

6.4 Jurisdiction for Claims Against the USG. Refer to the MDVA Section 13.3.4.

7. Revocation of Access. A User's access may be suspended or revoked by 10xNatSec for: (a) violation of this EULA or any companion document; (b) termination of the applicable Order Form or Purchase Order; (c) a Government Customer's failure to satisfy payment obligations; or (d) conduct that threatens the security, integrity, or availability of the Platform. 10xNatSec shall have no liability to any User for any suspension or revocation of access made in accordance with this Section. Upon revocation, the User shall immediately cease all use of the Platform and Data, subject to the survival provisions in MDVA Section 12.4. Notwithstanding revocation of a User's access, 10xNatSec may retain records related to the violation, including access logs and related documentation, for so long as reasonably necessary for enforcement, audit, or legal defense purposes.

8. Notices. All proprietary notices, copyright markings, and attribution requirements included with Data shall be preserved in all copies or substantial portions. Users shall not remove or alter any proprietary markings placed on the Platform or Data.

Acknowledgment. By clicking "I Accept," creating an account, or otherwise accessing the Platform, the User acknowledges that they have read and understood this EULA and agrees to comply with its terms. This acknowledgment constitutes a user-level acceptance of obligations established under the applicable governing agreements and does not create independent

contractual obligations on behalf of the User's organization or the United States Government. If the User does not agree, the User must not access or use the Platform.

Effective as of the date of User's first access to the Platform following acceptance.
